Wendy

~~Draft~~ Sewer Committee Minutes

October 2, 2013

Present: Richard Dionne, Steve Beckert, Nancy ~~Boyce~~ Shaplaigh, Rich Russell, Mike Dupuis, Grant Hirst; Janet Hastings was excused; others present Jack Murphy, Joel Moulton, Bob Pomerleau

Meeting called to order 4:20 PM. Minutes of September 11. 2013 read and accepted

Joel's I & I initiative- looking for bids for CCTV work and manhole penetration- work to be done in the next week or two.

No progress on Sawgrass Meadows.

Nothing yet from Mr. McDonald on the problem at Pickering- problem thought to be either an illegal sump pump, an overflowing tank or a perimeter drain connection. Joel is to write a second letter to Mr. McDonald who has indicated he wants a solution but one hasn't been forthcoming.

The Subcommittee on Sewer Rates is still waiting for the October bill from Kittery, that bill being the first on the new billing system. Once Joel has that bill, he will provide a copy to the rate subcommittee and a meeting of that subcommittee will be called.

The company from which we have been getting our manhole covers is now out of business and we'll probably have to go to a new manufacturer. It is anticipated there will be a problem with new covers fitting existing manholes and so we may have to retrofit manholes to receive the new covers.

Many thanks were given to Kate for her exceptional work on putting the sewer ordinance together in anticipation of the November town meeting. That warrant article is now ready and has been provided to Wendy.

Mike is to be on the BOS agenda for their October 10th meeting.

Jack updated us on the changes to the TIF law of 10-9-13, and he also reported some information on the proposed new LNG refilling station to be built north of the gas compressor station.

Mike asked Grant to be acting Chair at the next meeting- which will be 10-16-13.

Meeting closed at 5:04PM.

Grant Hirst

adopted 10-16-13

acting Chair for Mike Dupuis
