

EEC Meeting Minutes June 16, 2011

Meeting called to order: 6:55 PM

Present: Jack Murphy, Jenny Isler, Charlie Case,

Guests: Monique Lillis, Emma (Marshwood student)

1. Carbon Challenge discussion: Participation at Marshwood was limited this because of our late start. It was suggested that we prepare for an October 2011 start and get a new Carbon Challenge intern in place this summer. Jenny suggested that we likely can fund an intern stipend from our current EEC funds. Monique commented that a Marshwood student might be willing to do it for Community Service credits and suggested that we try going to the Green Committee of the student government. Mr Matt Sangone is their faculty advisor. Mr Gardner is planning to attend our July meeting and will know what is realistic for the schools to do. Jenny reported that AJ Dowling's position has been cut from Clean Air Cool Planet. AJ has been our contact for the Carbon Challenge program. (Note: see AJ Dowling's metrics report for June).
2. Greenhouse gas inventory: Monique is almost there. She will meet with Charlie before the next meeting to review what she has in detail. She agreed to do our inventory for FY11.
3. We thanked Jenny Isler for her great work as our EEC Chair over the past two years. Jenny will not continue due to time commitments for her job.

Meeting adjourned at 8:15 PM
