There will be a public hearing at 6:30PM April 29th at town hall on the sewer bond ~~deb~~ *ALLOCATION*. Mike passed out a packet (prepared by Melissa) associated with that subject which gave details on the work proposed, together with pictures and a map.

The generator associated with Pump Station 1 is to be replaced. That present generator will likely go to Town Hall as a source of back-up power.

The O & M manual has been carefully reviewed and edited and the final work product should be available to the Selectmen at one of their next two regular meetings.

Meetings have been conducted with several neighbors in the immediate vicinity of Pump Stations 1 and 2, to explain to them some of the details of the proposed work and how it will impact the area.

Next meeting will be May 6, 2015.

Meeting adjourned 4:42 PM.
