Jack indicated he believed he was a member of this Committee but he is not listed as such in the latest Town Report. At this time he is considered to still be a liaison from the BOS.

Minutes of the June 4, 2015 meeting were approved as written, signed, and a copy left for Wendy.

There was discussion involving formal reports we had gotten back from three committees: Energy, Planning Board and Business Development, and no others. Dana came in and advised that the large matrix he furnished us in May or June- which was contained in a large manila envelope- constituted a response on the reports of status of the other town committees (who responded to our request for those reports), as listed on that matrix, and that there were no formal reports beyond that. It is clear we will have to give that matrix a second review.

Vickie and Russ attended a meeting of the Conservation Committee recently, on behalf of the Comp Plan Review Committee.

The question arose on the extent to which, if any, the TIF Alternative Committee had considered the Comp Plan in their deliberations and it was decided that Vickie would write the TIF Alternatives Committee and ask the question; and that both she and Jessica might attend one of the TIF Alternative Committee meetings for that purpose.

There was considerable discussion about the need for another survey of the town, not unlike the one that was done in advance of the completion of the 2009 Comp Plan, to assess the current feelings of the citizens on a host of issues. It was suggested such a survey could be done on-line, in part, or via a mailing, or an enclosure in The Sentinel. No decision was made. It was pointed out that such a survey would probably need to be done in conjunction with the 10-year review of the Comp Plan in 2018 or 2019.

Next meeting August 6 at 4:15PM.

Adjourned at 5:16PM.
