Minutes of meeting 6-27-12 read and accepted

The balance of the meeting was taken up almost entirely by Kate's excellent presentation on the first half of the sewer ordinance- "Chapter 18 Sewer System", parts 18-1 through 18-24, including table 18.7, comprising some 27 pages and line-numbered 1-1257. She also presented a two page sheet of questions she had developed, together with a page of "Cited Publications".

The Sewer Committee answered a number of the questions but some answers were delayed pending further review. Jim was charged with going through the ordinance to be sure all portions of it were current.

Kate also asked a few questions dealing with the second half of the ordinance, review of which she has not completed.

Joel read a letter from Integrated Marketing Solutions (Kat Beaudoin) dated 7-18-12, which letter he will discuss with selectmen tomorrow night.

Meeting adjourned 5:46PM.
