

## Eliot Rt-236 Sewer and Water Project

As a result of years of planning and designing, the Town of Eliot is beginning construction of the Route 236 Water & Sewer Project. This Project aims to increase economic development potential while protecting our environment.

The Project will install water and sewer infrastructure along Route 236 and other roads in the vicinity and install sewer force mains along portions of Beech and State Roads. New pump stations will be built on Route 236 and Beech Rd. near Great Creek. The force main pipeline will convey wastewater along Beech Rd. and State Rd. to connect to the Town's existing gravity sewer system on State Road by Mount Pleasant Cemetery. The Project is funded primarily by the Route 236 Tax Increment Financing District (TIF or TIF District), with the assistance of the Clean Water State Revolving Loan Fund, administered by the Maine Municipal Bond Bank and the Maine Department of Environmental Protection.

The contractor for the first phase of the Project is DeFelice Corporation. Later this year, bids for future phases of the Project along Route 236 will be advertised. Construction engineering will be provided by Underwood Engineers, and the Town's (Owner's) Project Manager is Tighe & Bond. The project team has a great deal of experience in water and sewer line construction and will be working continuously to minimize traffic and access disruptions throughout the Project. Your patience is greatly appreciated with these disruptions as we upgrade this area of our community that will serve us for decades to come.

### Here's how you can stay informed:

1. Attend a **Project Information Meeting on Thursday, April 6**, from 5:30 pm to 7:00 pm in Town Hall. A remote videoconference participation option will also be available. See the Town Calendar for the remote videoconference link.
2. Look for **project updates** on the Town's website.
3. Sign up to receive emailed project progress updates, including where work is being done and any expected construction traffic control measures (e.g., lane closures). Sign up by emailing a request to [rt236project@eliotme.org](mailto:rt236project@eliotme.org).

For questions and more information, email [rt236project@eliotme.org](mailto:rt236project@eliotme.org).
