

**Town of Eliot
Driveway Permit**

Permission is hereby requested to construct an entrance approach from my property to _____ Street/Road, in the Town of Eliot at the location agreed upon which will meet safety requirements.

Upon approval of the location of the entrance approach, I agree to the following:

- 1: The grade of the approach at the location to be agreed upon, is to such as will permit a safe and controlled approach to the highway at all seasons and so designed that no water will discharge from the approach upon the surface of the highway.
- 2: Such drainage structures as are necessary to maintain existing highway drainage are to be furnished by the land owner, and are to be such design as will meet the following Town of Eliot specifications
 - A. Minimum diameter of culvert shall be 12 inches with larger size to be determined on case-by-case basis
 - B. Minimum length of culvert shall be 30 feet.
 - C. Minimum depth of cover over culvert shall equal the diameter of the culvert (ie. 12-inch culvert = 12-inches of gravel)
 - D. Rock headers or erosion control stone shall be constructed at each end of the culvert to protect and mark the end of culvert.
 - E. Approved types of culvert:
 - E.1 ADS double walled/ stiff ribbed with smooth wall inside.
 - E.2 Galvanized spiral/corrugated
 - E.3 Aluminum spiral/corrugated
 - F. Temporary culverts shall be removed promptly and the natural drainage restored to the satisfaction of the Public Works Department.
